

Cobra Officer Course

To get the most out of Cobra, persons that lead interventions must know the possibilities that Cobra offers and when and how to use Cobra for safe and effective operations.

The Cobra Officer Course is a theoretical half-day course delivered by highly experienced Cobra Senior Instructors and covers tactical training in decision-making on the use of Cobra in fireground operations.

In the course, participants learn about how to use Cobra in a safe and effective way for different types of fires. Participants will also learn about Cobra tactics, the SAVE method, and effective decision-making on when to use Cobra and the SAVE method.

The aim of the Cobra Officer Course is to give Incident Commanders and other decision makers a good understanding of how to integrate the Cobra SAVE method into their firefighting tactics.

The Cobra Officer Course may be delivered at the customer's preferred training facilities or at a Cold Cut Academy approved venue.

Cobra Officer Course
